

DUENDE NATURAL WHERE ECO & CULTURE MEET.

PRESS RELEASE

For Immediate Release: Friday, August 1, 2014

Duende Natural's African Diaspora Children's Book Drive — July 24 - August 10, 2014 —

BROOKLYN, NY Aug. 1, 2014 — Great ideas stand the test of time. Duende Natural & Sankey's Afro-Caribbean Historical Museum have teamed up to start collecting Children's books of the African Diaspora for the youth of Costa Rica's Caribbean Coast.

"We are looking to create a mobile library that will be stationed at various Caribbean towns to foster the growth of cultural knowledge in the area," Co-Founder, Cheryl Browne noted.

"With a population of 4.4 million people and a literacy rate of 96%, we found on the Caribbean coast, there were little to no books on the African Diasporic experience around. This realization sparked this initiative to work closely with the Afro-Caribbean Historical Museum as the place where locals can learn of our contributions to the world," Co-Founder, M'Bwebe Ishangi added.

Duende Natural asks all to search through their personal books, ask friends and neighbors for any books that are no longer in use or head to your local book store and purchase a book for a child. Read It Forward!

There are two drop-off locations in Brooklyn where contributor's can donate from July 24 through August 10, 2014:

Martine's Dream

681 Nostrand Ave, bet. Prospect & Park Pl, Brooklyn
Days: Wednesday - Sunday
Times: 12pm - 8pm

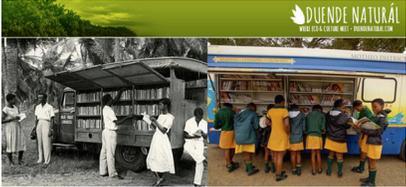

Arts East New York

851 Hegeman Ave, Brooklyn
Days: Monday - Friday
Times: 11am - 5pm

We will take what we collect down with us on our group tour August 18-26th.

For more about our trips to Costa Rica, go to: <http://duendenatural.com/tour/tour.html>.

For Immediate Release: Friday, August 1, 2014

About Duende Natural

The Duende Community Enterprise Group (DCEG), LLC & Duende Natural was founded in 2012 by a group of friends from Brooklyn, New York with strong Caribbean roots and a passion for nature and the environment. Duende' is a Spanish word which means the smallest spark of spiritual essence.

The Duende Community Enterprise Group. (DCEG) is comprised of community based entrepreneurs whose pooled resources have created an initiative with the capability to address two major demands in the tourism and eco-tourism investment industry:

1) A community supported glamour camping resort that creates sustainable life changing, conservation-oriented tourism experiences. We captures the essence of local community culture and know how, with limited effect on the natural eco-system. People will have the experience of a lifetime and respect the environment at the same time. This dynamic experience will soon be a must visit tourist destination.

2) An opportunity for those interested in owning an exotic getaway to purchase land which is within walking distance of the glamour camping resort. Homes built on the land will have the advantage of renting the property when not in use to help re-coup the initial investment. DCEG provides an in-house management team that will seek renters, and manage the property and finances so that owners just have to collect the monies they earn.

Our aim is to create an eco-friendly future for ourselves, our children and our communities to provide a natural, organic and holistic way of life. Duende Natural uses earth-based living skills, nature awareness and indigenous practices to create a partnership between our members, visitors, students and the environment.
